Periodontists **(gum specialist)**

We provide extensive, customized gum disease treatment. When gum disease requires more complex treatment to prevent tooth loss, we refer our patients to a periodontist. Our previously referred patients have found the doctors listed below to be some of the best in our area.

Replacement tooth options include implants. Implants (the "replacement root") are placed by a specialist. The specialist will have a fee for the implant, and there is a separate fee for the replacement tooth placed by Dr. Meyer. We'll be happy to give you estimates before you get started!
